

Dear Parent, Guardian, or other Legally Responsible Adult:

Our high school is getting ready to administer an annual school climate and culture survey called Conditions for Learning to students in grades 9-12. The survey administration is required by the state's plan to meet a federal law called the Every Student Succeeds Act. Our school will conduct the survey on Wednesday, May 8 and Wednesday, May 15, 2019. All Iowa public school districts will use the Conditions for Learning Survey to improve safety, student engagement, and the overall learning environment so that all Iowa students have optimum condition for learning. Our work to improve safety, student engagement and the overall learning environment will have a lasting impact on the future.

Iowa measures conditions for learning by asking the real experts each year – **STUDENTS**. **This is their chance to make their voice heard, and we intend to listen.** Studies have shown this work matters. Improving skills such as solving problems, working out conflict, and working with other people in a group has led to **double-digit** increases on achievement test scores, improved classroom behavior and improved attitudes.

All public schools in Iowa will use the statewide online Survey to assess the Conditions for Learning in their school grades 3 through 12. South Central Calhoun Community Schools will receive timely data annually at the building level in the fall to support alignment of professional development with identified needs of students.

We will ask your child to simply fill out a **confidential [private]** survey. The Survey will focus on issues ranging from student safety, to positive student relationships, to school rules and how they are enforced. A high rate of participation by students in completing the Conditions for Learning Survey is important for obtaining the most complete school climate data for our school. Support from you in communicating to your students that this is their chance to be heard and to be part of the effort to improve conditions for learning at their school is critical.

Thank you for partnering with South Central Calhoun Community Schools to improve conditions for learning throughout the state. Included in this packet of information is an overview of this opportunity, as well as:

- 1) An information summary about the student surveys
- 2) A written refusal form if you **DO NOT** want your child/children to participate in completing the Survey.

Please let us know if you have any questions and thank you again?

Sincerely,

Mr. Randy Martin  
9-12 Building Principal

## 1. INFORMATION SUMMARY FOR STUDENT SURVEY

During the Spring of 2019 if your child is in grades 3 - 12, your child will be invited to complete a brief Conditions for Learning Survey online. **Participation in the Survey is nameless and strictly voluntary, and no student is required to fill out the survey.** The Survey will take about 30 minutes to complete.

### *Purpose of the survey*

The purpose of the Survey is to obtain information about how students feel about the culture and climate of their school and teachers, as well as the safety of their school. The information collected will help the state, our schools, and local community improve the school. It is important to ask children to tell us what is good and working about their experience in school, and what needs to be improved, in their eyes. You may review Survey questions located in the office of your school or request an electronic version.

### *Parental Rights:*

- You have the right and the responsibility to be informed about what your child volunteers to participate in at school.
- You have the right to receive accurate information about the Conditions for Learning Survey in order for you to make good decisions for your family.

### *Confidentiality:*

All information collected will be nameless. Students will not put names, birthdates, or any other way to identify them on the Survey, and all surveys will be private. Results are reported only in terms of the way various groups of people have responded. [In an effort to maintain anonymity, information on results for sub-groups (by race, gender, grade, etc) with fewer than ten people are omitted.]

### *Compensation:*

There will be no payment or reward for students filling out the Survey.

### *Voluntary:*

- All students in grades 3-12 will be invited to fill out the Conditions for Learning Survey. Students will have the right to refuse to answer any questions on the Survey. If a student decides they want to change their mind and not complete the Survey they may do so.
- If, as a parent or legally approved adult, you do not want your child/children to participate, you must send the school the *Refusal of Consent* form provided in this letter,

**2. WRITTEN REFUSAL FORM**

I have read the information Summary provided. I understand that my child/children's participation in the Survey is *voluntary*. I also understand my right to review the surveys at the school office and District Administration Office until the date of Survey administration. I **do not** want my child/children listed below to complete the Conditions for Learning Survey. I understand that a different activity will be provided for them during the Survey time and that there is no penalty for my family members not completing the Survey. I understand that refusal of consent needs to be received by the school no later than the date that the Survey is administered. Please return this form with your child's name and your name signed below to the building principal if you do not want your child to participate.

Names of child/children who will not participate in completing the brief Conditions for Learning Survey online in Spring 2019:
