Dear Families,

We are very excited that construction on the elementary additions will begin soon!

This week, Sande Construction will be setting up their staging area. The first area where they will be working is the west side. You will notice these changes:

- (1) The south parking lot will be blocked off (except for delivery trucks).
- (2) The front door will be blocked off for both entering and exiting the building. Visitors should walk around to the south door.
- (3) Morning parent drop-off will occur at the corner of Brower and Lake. The last two parking spots will be blocked off to create a pathway. Students will enter the building through the northwest door.
- (4) At dismissal time, all walkers, bikers, and car riders will exit the building through the northwest door. Car riders will line up at the end of the sidewalk to wait until their car pulls up to the pathway or until an adult comes to walk them to their vehicle.

We know there will be some confusion and inconvenience, but we also know it will be worth it. It's exciting to see growth and progress!
